

UHF Passive Pallet/Container Tag

High Performance, Best in Market

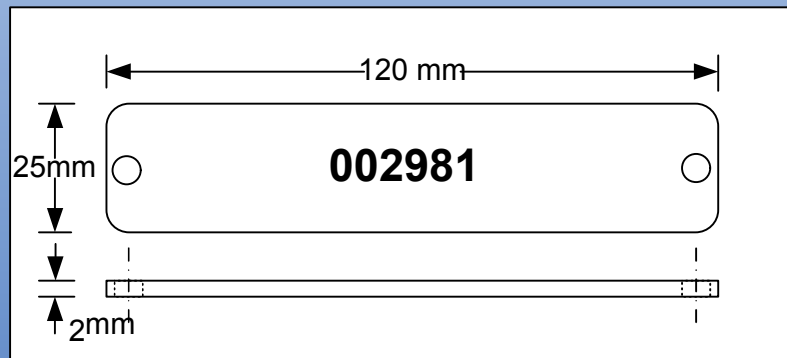

FEATURES

- Comply with EPC Class 1 Gen 2 and ISO18000-6C
- Visible Identification Number on Tag (Laser Marking)
- Pallet Tracking, Container/Box Tracking
- Low cost, Suitable for plastic container
- Proven performance and quality

UHF Passive Pallet/Container Tag is compliant with the EPC Class 1 Gen 2 and ISO18000-6C. The frequency used for ultra high frequency UHF RFID systems is 860-960MHz for UHF.

UHF Passive Pallet/Container Tag

Technical Information

	UHF Passive Pallet/Container Tag
Supported Standard (UHF)	EPC Class 1 Gen 2 compliant
Resonance Frequency (at +25C)	860 MHz - 960 MHz
Total Memory	96 bits
Dimensions	120 mm x 25 mm x 2 mm
Case Material	ABS
Operating Temperature	-10°C to +65°C
LOGO/Unique Number Identification	Laser marking / Silk printing
