MC9090-G

RFID Handheld Mobile Computer

- **Rugged:** Exceptionally rugged construction with high performance mobility architecture, delivers enterprise performance and ROI
- **RFID & Barcode:** Ability to capture a comprehensive range of data from RFID to barcode, and images
- **Versatile:** Suite for manufacturing, warehouse, loading dock and yard management application

AP-5131/5181

Wireless Access Point (indoor-outdoor)

- **Superior performance:** offers networking flexibility with single device solution for both wired and wireless networking, Dual-radio, dual-band design, 802.11a/b/g in 2.4/5 GHz bands, works with any standards-based IEEE
- **Integrated router, firewall and DHCP server:** Easy to scale, upgrade and maintain
- **Mesh Features and Extend coverage:** the AP-5131's mesh features to extend corporate networks to difficult-to-cable areas or to hard-to-reach places, while enjoying benefits of centralized management

WS2000 & AP300

Wireless Switch & Access Point

- **All-in-one:** Powerful all-in-one solution integrating wired and wireless (802.11a/b/g) networks, router, gateway, firewall, Power-over-Ethernet (PoE) and more, simplifies and eliminates the costs of managing complexity of managing multiple pieces of equipment
- **802.3af Power-over-Ethernet (PoE) support:** Eliminates expense and problem to power access ports and points
- **Scalable:** Easily and cost-effectively scale to meet growing needs today and tomorrow
